“ I had the pleasure of meeting Bernie after his accident when he was at Rusk. I was blessed enough to treat him and conversate only to determine he went to school with my husband's grandpa. He shared many memories and I was able to share pictures of my family with him. He was a true delight with such a positive attitude and knew everyone's name as well as tried to get to know everyone on a personal level. My heart hurts for his family and I will never forget this wonderful delightful cheerful man. He truly touched my life, I continually think of him and smile from all the progress I was able to see him make. Thank you for sharing him with us for a short time.
