Was good to see you Zach. I know our Dads had more of those good (and probably some wild) times than we'll ever even know about. Wish we had more time with them both. And know that it made Dad smile that you're a Harley guy too

He was like no other! I remember him from my childhood. So kind and very funny.

I knew Loren since I was a little kid. He was always so helpful with my motorcycles. He knew everything about them and wanted to help. When I was 16 I was going to buy my first brand new one, I had it down to 2 different bikes. Loren came by my dads shop and I showed him pictures of the 2 and asked him what he thought. He said we want this one. Had my new RD400 the next day!

I loved that guy and hope good memories make the loss for Nelson and Kim just a little easier.

He was a great guy, mechanic, and a heck of a truck driver. And a good friend. He will be missed by many.
